Social Sciences, Beijing, China)

Abstract: This paper, based on a study of western Yugur language, analyzes the phonetic similarities and differences of three Chinese variables, as Chinese loanwords in the western Yugur language, Chinese words spoken by Yugur bilinguals and the local Chinese dialect. The paper finds that language contact exerts a strong influence on the phonetic variation and interaction in northern languages of China.

中国北方民族的汉语发音

提要：本文以中国西部裕固语为例，分析裕固语中汉语借词、裕固族双语人说的汉语和当地汉语方言三种汉语语音的异同，说明语言接触对西北汉语和裕固语的语音变异和相互影响在中国北方民族语言中具有一定的普遍性。
